COURCHEVEL IS PREPARING THE BEST ENVIRONMENT TO WELCOME YOU

The whole resort welcomes you for a winter season in the great outdoors, a chance to escape the pressures of daily life and recharge your batteries, but also enjoy a rich programme of activities and events.

Though rigorous health and safety procedures have always been part of Courchevel's DNA, we are implementing even stronger preventive measures to protect you so that your time in the resort with family and friends can be fully enjoyed. Your safety and peace of mind are of utmost importance to us and we are constantly reviewing government guidelines to ensure that required health measures are put in place.

Below are the details of preventive measures that will be carried out during your stay in Courchevel. This list will naturally evolve over time to ensure that the highest standards of safety and hygiene are maintained. They will remain in place as long as it is required.

SKI LIFTS

SECURITY OF SKI LIFTS

Our teams welcome you and ensure safety precautions are taken: limiting the number of people per cabin/seat, regular disinfection of spaces, hand sanitiser to be offered at each ski lift...

BARRIER GESTURES ARE PUT IN PLACE

As in everyday life, we request that you adhere to barrier gestures and support these preventative measures: wearing a mask, regular handwashing, maintaining social distancing (a metre between each person)...

PACKAGE REFUNDED IN CASE OF RESORT CLOSURE

In case of cancellation of the ski lift service after purchase of a ticket package, you will be refunded (see general terms of sale for more information).

ACTIVITIES/EVENTS

Courchevel will adapt its event and activity programme with a focus on large open spaces and small groups. If equipment is used, it will be regularly disinfected. On site, organizers will wear masks and regularly offer contactless distribution of hand sanitiser. Sporting activities will also be adapted to suit these safety requirements.

The entertainment program is available in a digital version on the website. Do not forget to check to see if events require you to sign up in advance.

Visit the AGENDA page to find out all about our activities.

TOURIST OFFICES

Courchevel Tourist Offices welcome you and ask that you follow the safety rules. Our staff is fully trained in the proper health and safety measures. In order to reduce the amount of contact, paper information will be available only if specifically requested.

BUSINESSES AND SERVICES

Restaurants, accommodation providers, hosts, business services and shops... All resort personnel who have the pleasure to welcome you is committed to complying with the French health and safety protocols and have adapted their service in accordance with the guidelines. Please do not hesitate to ask for details.

Two pharmacies and three medical centres will be available throughout winter. You will find all the practical information here: <https://www.courchevel.com/fr/commerces-et-services/sante-beaute>

BUS SHUTTLES

Masks must be worn on shuttles

A distance of 1 m between passengers must be maintained

Stop offs in authorized locations only

Respect social distance markings

Buses will be disinfected every day

AQUAMOTION

Advance booking is required for climbing, group activities (aquafitness, aquabike) and swim lanes.

Time slots are every 3 hours in order to enable regular disinfection.

Hygiene measures: designated walkways, showering before entry, masks and bathing caps are required.

Outdoor spaces are still accessible for relaxation.

You can contact us by phone on +33 (0) 479 08 00 29 and by email info@courchevel.com

PRESERVING OUR NATURAL ENVIRONMENT

Because I love skiing in Courchevel, I contribute to the protection of the environment.

COURCHEVEL IS LABELED <STATION VERTE>

SKI AND SKI TOURING, SNOWSHOEING, ETC

Rather than leaving my packed lunch rubbish in the wild, I always bring it back or throw it in the bins scattered on the ski area. As for cigarettes I always carry a pocket ashtray available that I buy in the resort. Ski-passes can be recycled and I place them in the appropriate boxes where I bought my ski pass.

TRANSPORT

Once there, I use free shuttle services and lifts to travel inside the resort. In the car parks, electric terminals are available to charge up your electric car.

HEATING

Before going skiing I turn down the heating and if I'm cold I wear a warm jumper. In the evening I close all curtains and blinds to keep the heat in.

WATER CONSUMPTION

In the winter, river levels gets low: don't waste water!

NOISE POLLUTION

To everyone's welfare, we are getting quieter after 10.00pm.

RECYCLING 150 PLACES

On holiday I also think about recycling paper and wrappings in yellow containers. Glass and cardboard in specific designated areas. Recycling guides are available at the Tourist Office.

SKIP

For cumbersome, useless, toxic and large items as well as cooking oil and clothe I use the skip in:

- Le Carrey **+33 (0) 479 55 35 23**
- Le Plan du Vah between Courchevel Moriond and Courchevel **+33 (0) 479 07 78 61**

Opening hours and information: communauté de communes Val Vanoise **+33 (0) 79 55 03 34**

SHOPPING

When I do my shopping I always try to buy products labelled ecolabels as well as local and seasonal products... New this winter: book boxes and donation boxes to give a new life to your things or come across a gem.
