### The "Escapade Lifts" in bold

*You do this entirely at your own risk, act responsibly, **take full ownership for your own actions and all of those with you**, respect other people (& the mountain), ski & ride within your limits, always obey the skiers & snowboarders code, observe all signs, pay attention to all notices, advice & instructions from Pisteurs, only ski off piste if fully equipped & knowledgeable, it's not a race (you won't be insured), think about the safety of others as well as yourself but above all, take care, don't wreck things for others & don't even think of blaming anyone else if it all goes horribly wrong.....*
